HARRYSON

Phone: 8050579772 | Email: jonieedrake@gmail.com | Location: Bangalore, India

PROFESSIONAL SUMMARY

I am a MCA student and continuous learner passionate about engineering seamless digital experiences from the ground up. I specialize in building meaningful, highly responsive websites that solve real-world problems while maintaining clean, efficient code. Additionally, I bring a keen interest in cybersecurity principles to ensure the applications I build are secure by design. Seeking an entry-level Full-Stack Developer role to deliver impactful, user-centric web solutions.

WORK EXPERIENCE

Front-end Web Trainee , Symbiosys Technology **(Oct 2024 — Jan 2025)**

- Built responsive web interfaces using HTML, CSS, and JavaScript, ensuring seamless layout performance across desktop and mobile devices.

Front Desk Management , Guard India Security Services **(Jul 2021 — Sep 2021)**

- Handled visitor access control and day-to-day security protocols.
- Coordinated emergency response and incident reporting.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, Responsive UI
Backend: Python, Java
Tools : Git, GitHub, Vercel, VS code
Databases: MySQL, MongoDB, Schema Design
Additional interests: Cybersecurity fundamentals, computer networks and hardware

PROJECTS

AI Text-to-Video Generator | Python, PyTorch, Diffusers, Gradio

• Built a text-to-video generation pipeline using AnimateDiff-Lightning and Hugging Face Diffusers, with a Gradio web interface.
• Integrated motion LoRA adapters and CLIP safety validation into the generation workflow.

Recruitment Management System | HTML, CSS, JavaScript, MySQL

• Designed a recruitment workflow from screening through interview and offer.
• Implemented role-based views for administrators, recruiters and candidates, with profile management, task assignment and status tracking.

EDUCATION

Master of Computer Applications (MCA) — St. Claret College (Autonomous), Bengaluru - Pursuing (Present)
Bachelor of Computer Applications (BCA) — Aditya Institute of Management Studies and Research - (2021 – 2024)
Pre-University (Computer Science) — St. Vincent Pallotti College - (2019 – 2021)
SSLC — SVN English High School - (2019)

CERTIFICATIONS & ACHIEVEMENTS

- **MongoDB Certification –** Successfully completed MongoDB certification, .
- **AXA Hackathon (Digi Setu) –** Collaboratively proposed, designed, and presented 'Digi Setu', an innovative solution.
- **TERI Youth Climate Innovators Challenge –** Contributed actionable ideas addressing climate change and sustainability.
- **Cybersecurity Certification Course –** Completed fundamentals in Cybersecurity.
- **Frontend Web Development Course –** Completed structured training in Frontend Web Development.
